# KOSSA ÉVA

FRONT-END /DATA ANALYST

About Me

I have been programming for about 5 years now, and since then, I have spent almost all of my free time on it. It's safe to say that it has become my main hobby. Unfortunately, I don't have any professional experience yet, but I am eager to improve and learn new things in the field. That's why I am looking for my future workplace, where I could develop my skills more systematically.

SKILLS

- HTML
- CSS
- Javascript
- React
- Typescript
- Python
- Data Analysis
- Data Visualization
- Manual Testing

EXPERIENCE

Primary School Teacher
2008 - 2015

As a primary school teacher, among other things, I have learned to: multitask, perform my duties responsibly, and handle administrative tasks. My creativity and problem-solving skills have also improved. I work well in teams, but even better independently. I enjoy learning new things and advancing in my profession.

Freelancer
2022 -

Manual Testing
On online platforms (e.g., uTest), I have learned to execute test cases and report bugs.

Front-end Development
Primarily developing websites and coding smaller React applications.

Data Analysis
Worked with datasets on the internet platform Kaggle (data analysis, data cleaning, data visualization, machine learning).

STUDIES

Faculty of Education, Kecskemét College
2005 - 2009

Primary School Teacher, Natural Sciences Education Field

COURSES

Free Code Camp
2021 - 2023

Responsive Web Design

Javascript

Front-End Development

Libraries Scientific Computing with Python

Data Analysis with Python

Machine Learning with Python

HOBBIES

reading, learning new things, studying Japanese, programming, computer games, board games
